Kumar's version of the film is the kind that should have a lot of money and a star cast to succeed. But, even if you dig into the plot of this romantic drama, there's not much to it. Read More... Friday, October 25, 2012 Kis Kisko Pyaar Karoon Movie Review: Review by Venkat Kismat Ki Kis Kisko Pyaar Karoon, the movie based on the same-titled novel by Jigyasa Raman, has raised a lot of attention for its innovative choice of casting for both lead and supporting actors. The movie stars actors like Prakash Raj, Shilpa Shetty, Aamir Khan and Parineeti Chopra. The movie takes the audience into its quirky world through six intriguing characters. The movie is most entertaining as it takes the audience into a very different world where it deals with relationships and their impact on people. Raman has written an entertaining story where Ravi Teja, Shilpa Shetty, Aamir Khan, Prakash Raj and Akshay Kumar are the protagonists. He has been able to write a story where there are several complications and emotions which all of us can identify with. Raman has portrayed an idea which is not possible to write in an easy manner. His writing is straightforward, while the movie has moved a lot from one place to another with the objective of showing the effect of relationships on people. The movie showcases how actions have a long lasting impact. Krishen (Prakash Raj) is a widower and runs a jhopad puri (fried snack) shop. His only son Ravi (Aamir Khan) lives in Dubai, while his daughter Malini (Shilpa Shetty) lives with her parents. Krishen suffers from a painful arthritis. Ravi, a young man who happens to be his son's age (it is unimportant to mention how much his son loves him) comes to Mumbai from Dubai. Ravi is almost confused and nervous about his father's condition and marriage, so he calls his father and invites him to Dubai. Malini and Ravi are childhood friends and they love each other, although they have not really revealed it 82157476af
